

AIRTEC Pneumatic Cylinders for *EXTREME* Conditions

Available in the following configurations

- **XLC** For Temperatures down to -40 C (-40 F)
- **XLCD** For Temperatures down to -40 C and Ice Scraper
- **XLH** For Temperatures up to 150 C (+ 302 F)
- **XLD** Heavy Duty Scraper to remove Sugar, Dirt, Metal Chips, and just about anything else from the piston rod

Technical Data:

- Stroke Length: up to 2800 mm
- Piston Diameter: 32,40,50, 63, 80 and 125 mm
- Operating Pressure 1 to 10 bar (14.5 to 145 psi)

Company Background AIRTEC Pneumatic GmbH has been developing, manufacturing and distributing innovative pneumatic components for more than 35 years. Today, the company holds an internationally esteemed position in pneumatics, serving manufacturers in a variety of industry branches from leisure industry to robotics and space technology. The product portfolio covers a wide selection of pneumatic parts: different cylinder and valve series including terminals with multipole and bus interfaces, vacuum technology-based devices as well as ex-protected components and drilling units. Additionally, AIRTEC offers customized special solutions. An international distribution and service network ensures prompt and reliable support for customers around the world.
